

# I'm on a Team Build Day

## Get me out of here!

### What is it?

A hysterical team test based on the TV show "I'm a celebrity get me out of here".

You're minding your own business wandering through woodland, when a cork-hatted man emerges with a plate of plump maggots. He tells you to eat them! You must be dreaming, you think to yourself "This must be a nightmare!" Nope; it's your team building day...

### How does it work?

Teams are formed and each assigned to one of five trial zones. Team members then confer to decide who wants to try the zone's challenge.

With each test lasting 15 minutes, a rotation system will allow each team to tackle every task throughout the day. Teams will be coached and observed by a resident trainer at every zone, and awarded one, two or three stars for their performances.

At the end of the day, the team with the most stars win. Bonza!

### Classic Tasks:

#### **Touch it!**

Grab and grope as much as you like without fear of being arrested. We've placed mystery objects inside a sealed box. It's the teams' job to stick their mitts inside and guess what they have hold of. Just pray you don't get the slimy object...

#### **Jungle Feast**

Imagine you've been lost in the rainforest for days. This is survival; it's time you swallowed your pride and ate whatever you can find. Unfortunately, we've found it for you and will serve up dishes including Bursting Bugs or the One Minute Cracker Challenge. I hope you've skipped lunch. (All products are safe for human consumption).

#### **Blind Tasting**

I do it every time I eat round the in-laws'. From an unrecognisable assortment of substances in front of them, teams tuck into the mystery food or drink to correctly identify the ingredients.

#### **Bush Tucker Challenge**

Greeted by an eccentric antipodean store keeper named Barking Bruce, teams are offered a day's food supply if they can scare local wildlife away from his shop. By constructing a free standing catapult and loading it with projectiles, teams can attempt to hit various targets to prove their animal-scaring abilities. Personally, I would have just put a Jason Donovan album on loud.

#### **Can you tell what it is yet?**

No, it isn't the left leg of the Venus De Milo. After all that tasting, touching and Tasmanian Devil frightening, teams get to use their brains - and their imaginations without doubt.

Partly concealed objects are displayed at bizarre angles - simply guess what they are.
