

It's a Knockout

What is it?

An enjoyable, competitive and physical team event.

Encouraged by our crazy MC, your guests get to hurl themselves through an inflatable assault course of frantic fun, foam and folly where only the most dedicated and driven team will be victorious!

Welcome to the ultimate knockout challenge.

How does it work?

Teams are formed and compete against one another in a variety of games. 3 points are scored for winning a game, 2 for a draw and 1 for losing but competing.

Points will be displayed on large scoreboards so that teams can see how they are progressing throughout the day. Teams are also issued with a 'Joker' card – which when used doubles the points won in a single round.

At the end of the day, the team with the most points will win! Your 'It's a Knockout' event is entirely flexible and allows you to pick challenges to suit your audience and requirements. There are a myriad of options to choose from, including some of the following:

Amazing Slippery Wall

A water based relay race. Water soaked foam balls are carried over an inflatable wall and the water is squeezed out into a measuring container. The more water collected in the container, the more chance a team has of winning.

Bog Ski

Two teams race side by side. First they tackle the crazy skis, then the hoppers and then through the inflatable sausage and over the foam filled bog. The team with the most "goals" wins!

Bondi Beach Surf Challenge

Grab a surfboard and strap on some goggles, then belly surf on a special inflatable run to see who slides the furthest.

Bouncy Boxing

This activity has your guests strapping on the biggest boxing gloves you're ever likely to see. They then climb into an inflatable ring and bounce around trying to knock each other over.

Bungee Run

Our instructors will attach two guests to a bungee cord harness. Using all their body strength to sprint along the inflatable alley, the runners try to place their bean bag further than their opponent.

Bungee Splash

Head-to-head all out action. The objective is to transport water held in sponges from one end of a course to the other. Team mates soak up water in the sponge, and throw it to each other along the course, incorporating a twin bungee run. The sponges are then squeezed into a holding bucket.

The team with the most water in their buckets at the end wins. It's going to be wet...

It's a Knockout

Crazy Ball Relay

Two teams race head to head in a relay along the 4 lane course, dribbling a ball at the same time.

Giant Ski Slalom

Four people, one behind another, have all their right feet on the right ski, and all their left feet on the left ski. With great co-ordination the team must manoeuvre themselves through the slalom, round the roundabout and back. You'll soon learn left from right!

Human Table Football

Two teams compete against each other in a life size inflatable version of the traditional pub game, with the team players strapped to the poles. The team scoring the most goals wins.

Inflatable Assault Course

This is a team relay race. Team members rush through an assortment of giant inflatable obstacles. Tunnels, barriers, walls and vertical posts stand in the way of the racers and their goal – to reach the end of the course and tag a team mate. The first team with all members completing the course win!

Scatty Scooters

The object of the game is to move 100 footballs from one end of the course to the other using scooters, barrows, flippers and specially adapted helmets with a bucket on top.

Hmmm – sounds scatty.

Inflatable Beach Volleyball

It's a 5 a side volleyball game. But playing on an enormous inflatable where teams can only move by bouncing across the court, which will make things interesting...

Pedestal Joust

Two of your guests can battle it out on the "gladiator" pedestal joust. Use your jousting skills to knock your opponent off the pedestal and on to the inflatable flooring.

Penalty Shoot Out

The idea is to beat the goalie by kicking a Velcro covered football past them and making it stick to either the targets or the back wall of this 10ft high inflatable.

Pillow Fight

This is a gladiator style game where one member from each team takes on an opponent from the opposing team with the aim of knocking them off of a pole with a pillow. Different weighted pillows are available for different sized people.

Pulsar Pod - Quasar Battle

A giant inflatable 'pod' which comprises of a series of dimly lit, smoke-filled tunnels. Players are provided with a laser gun complete with high-tech sound effects and a fixed amount of shots. You will be able to recharge your gun at any time during the game. Strategy and tactics are required to ensure you have the highest score of hits on the computer generated print out.

It's a Knockout

Ready Steady Barbie

Teams select giant foam ingredients to put on the barbie (a barbeque to you and I), located at the end of the course. Once they have navigated their way through the course, the teams assemble their dishes and name their creations. Points are awarded for the most nosh on the barbie, and for the most inventive names.

Tug of War

The traditional Tug of War makes a great finale to the day. Each team can face up to one other and try their strength, as the other teams watch on.

Who is it suitable for?

- Energetic adults
- Colleagues, clients or families
- Most effective for 40 or more people

What are the benefits and outcomes

- An exciting way for guests to socialise and compete
- Action packed morning or afternoon
- Team building and bonding through fun physical activities
- A revitalising experience

Enhancements

- Test teams' mental and communication capabilities by incorporating a variety of mix and match teamwork challenges
- The array of games can be used to enhance any family fun day – for kids and adults alike
- We can provide themed prizes for the winners, coloured T-shirts or caps for each team and a professional photographer to capture the best bits of the day
- The event and the teams can be tailored to any theme; from pirates to monkeys, ninjas or zombies with costumes, props and music
