

Shaping the Future

What is it?

This fun activity is great for reinforcing a 'one team' ethos, as well as developing communication, problem solving and trust.

How does it work?

The group is divided into teams and are given all the tools needed to complete the task – 3 large polystyrene cubes, carving tools and art materials.

Their task is to work together to transform the blocks and create an eye-catching, memorable sculpture that meets the chosen brief. Within each team there will be 3 sub-groups, each working on a block.

At intervals during the activity, all sub-groups will be asked to down tools and move on to the next block, throwing an unforeseen change into the mix. This will test the teams ability to communicate their vision and plan to the next group that will be taking over, and challenge their trust and ability to embrace change.

The end result will be a sculptural representation of your team's values, goals and vision in a memorable 3D work of art.

This fun activity is great for reinforcing a 'one team' ethos, as well as developing communication, problem solving and trust.

What are the benefits and outcomes?

- Improved team interdependency
- More effective team working skills
- Allows every participant to work towards a common goal
- Improved lateral and creative thinking

Who is it suitable for?

- Newly formed teams which would benefit from bonding
- Established teams seeking to acquire or polish new skills
- Established teams which need refreshing and revitalising
- Any business team seeking to understand more about co-operation and team work
- All ages, genders and business backgrounds

Shaping the Future

Enhancements

- Incorporate your corporate colours
