

# Helping Hands

## What is it?

Armed with a selection of paints, your guests will be asked to create an individual handprint on which they can state their five aims and objectives for the year ahead. Unbeknown to them the individual pieces that seemingly stand alone all come together to form their event logo in a dramatic unveiling.

## How does it work?

There are various ways the detail of the event can be changed but the basic format is that the participants each paint their handprints on an A4 sheet of card. Each of the handprints is in a previously specified colour, which will eventually create the company logo or picture that has been specified. Whilst the handprints are drying the teams may wish to discuss their contribution to the company, and their aims. Once the hand paintings are dry, they can cut them out and write their five objectives on each thumb and finger (and their name on the back of the hand!).

At the end of the event it is revealed that the handprints all fit together to create this final picture, and they are assembled for due admiration. A photo will be taken of this final image, and the handprints given back to the individuals to keep.

## Who is it suitable for?

All ages, genders, organisations and backgrounds  
 Colleagues, clients or families  
 Most effective for 40 or more people

# Helping Hands

## Key Objectives

To re enforce the one team ethos in a relaxed and enjoyable way.

To focus on their personal objectives within the company, with a simple and fun team build activity.

To work together to produce a memento for the day

To have a personal list of objectives to keep and refer to, but also to have a large photo of the bigger piece as a memento of the day.

Good for international clients where language is a problem as much of the communication is done by the clients themselves.

## Timing and Logistics:

<b>Number of people</b>	20 – unlimited.
<b>Duration</b>	2-3 hours
<b>Venue / Logistics</b>	Indoor or outdoor activity,
<b>What we supply</b>	All instructors and equipment as per client requirements
<b>Pricing</b>	Price on application
<b>Health and safety</b>	Risk Assessed & £10million Public & Product Liability
